

CAPABILITY STATEMENT

Tachys Inc is an SBA 8(A) certified small business established in 2006 with a primary focus on technology innovations and program/project management support.

We provide Business Management and Technology consulting for Federal Civilian and state agencies.

Our sustained business with federal agencies has created a wealth of talented resources, which helps us mobilize people with right skill sets to help organizations achieve their goals with high success rates.

We are committed to creating innovative solutions for our clients.

Capabilities:

Our business and technology professionals can analyze federal financial systems and provide cost-effective solutions in the following areas:

- COTS product implementation and support services
- Federal financial system migration
- Program and Project Management
- Database design and systems administration
- Enterprise application development

Business Consulting:

Our federal financial expert professionals focus on business implementation solutions for a smooth operation and to enhance the performance of the agency.

Our team incorporates industry best practices to achieve your goals. Our business consulting services include:

- Financial Reporting
- Internal Controls
- Financial Operations

Technology Consulting:

Our expert professionals focus on developing secure and stable technology solutions.

With a mix of highly talented technical skills and project management professionals, our team can build complex projects with proper planning and coordination from the start.

Our technology consulting services include:

- Financial and Acquisition system implementation and integration
- Database system design, development and support
- Large data migration
- Data analysis, data cleansing and conversion

Customer Satisfaction is our #1 Priority
